## ABOUT

As a recent graduate, I am eager to continue my growth as a software development engineer. I have gained valuable experience through various projects and an internship as a Frontend Developer.

In addition to my technical skills, I am a straightforward person with a good sense of ownership. I am proactive in identifying and solving problems. I seek a role where I can utilize my technical skills and contribute to developing impactful software solutions.

## EXPERIENCES

### Sagara Technology

Frontend Developer Intern

(January 2023 - Present)

- Collaborate with developers on various software development projects.
- Actively fix bugs and solve problems
- Convert UI design into a functional user interface
- Experiences handling projects using ReactJS, Redux Toolkit, Nextjs, Tailwind CSS, AntDesign

### Prosa.ai

UX Designer Intern

(February 2022 - May 2022)

- Conduct a usability study for the newly launched product with 10 participants in 2 weeks
- Designed features and components for cross-platform development
- Worked closely with the product manager to discuss the design and interaction need to be built

## EDUCATION

### Institut Teknologi Bandung

Bachelors Information System and Technology

(August 2017 - December 2022)

## SKILLS

Front End Development: React JS, Next JS, Javascript, Back End Development: Node Js, Java, Ruby, Design: Figma.

## CERTIFICATIONS

### Generasi Gigih - Backend Developer Participant

Yayasan Anak Bangsa Bisa

September 2021

Yayasan Anak Bangsa Bisa (YABB) provide 3 learning path. I have participated in the back-end engineering path. In this training, I learned about backend development in general, Ruby programming language, Rspec for unit testing, etc.

### Mobile (Android) Development Participant

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka

July 2021

Bangkit Academy provides 3 technical skills training and soft-skills classes. I have participated as a Mobile (Android) Development participant. Through this training, I have learned about native Android development using Kotlin.

### Back End Developer Talent in Telkom DTI 2020

Telkom Indonesia

December 2020

Telkom Digital Talent Incubator (DTI) 2020 is a Digital Skill Development Program intended for final year S1 / D4 / D3 students carried out by PT Telkom in collaboration with Telkom University, through the Directorate of Career Development, Alumni, and Endowment (Tel-U CAE). This program lasts for 3 months from September to December 2020. I was chosen to be a talent on the Back End Developer skillset.
